

SwellFormPro

High Speed Tactile Graphics

Built for high-volume tactile graphic production

The Swell Form Pro is designed for publishers and organizations that need to produce large volumes of tactile graphics quickly and reliably. Engineered for efficiency and consistent results, it provides a dependable solution for high-output tactile graphic production.

SwellTouch

Heat Activated Swell Paper

Our industry-leading Swell Touch paper is produced entirely in-house, allowing us to control the process from start to finish. This ensures consistent quality and enables us to offer the best pricing in the industry.

Creating tactile graphics doesn't need to be complicated or time-consuming. Simply draw, print, or copy your graphic onto Swell Touch paper, then process it through the Swell Form machine—where the black areas swell to create a tactile graphic.

With Swell Touch paper, you can quickly produce durable graphics featuring varying heights, patterns, textures, and colors. These graphics are reusable, allowing them to be shared and enjoyed repeatedly. Swell Touch paper is widely recognized for its superior quality and consistently delivers excellent results.

TACTILE GRAPHICS USE CASES

As a teaching aid for blind students:

Tactile graphics can be inserted into books or used on their own, which enables those with visual impairments to read and learn with their fingers.

As a teaching aid for kinesthetic learners:

Educators have found that creating tactile graphics helps engage kinesthetic learners through touch, which supplements traditional audio and visual methods.

Makers and artists:

Use tactile graphics to create prototypes, tactile paintings and artwork.

Specifications:

Voltage:

Standard: 220V - 240V

Power: 2100W max, 250V fuse

Measurements:

Height: 38" / 96cm

Width: 30" / 75cm

Length: 40" / 100cm

Weight: 105 pounds / 48kg

Paper Sizes:

A4, A3, 8.5x11", 11x11.5" and 11x17"

Custom sizes are available.

WHY CHOOSE ZYCHEM?

Speed

The Swell Form Pro is ready to perform within moments of powering on and delivers exceptional throughput of up to 35 pages per minute—up to seven times faster than the standard Swell Form machine. Designed for efficiency, it keeps pace with even the most demanding production environments.

Paper Quality

Swell Touch paper sets the industry standard for quality, durability, and tactile performance. Manufactured entirely in-house by Zychem, every sheet is produced under strict quality control to ensure consistently outstanding results you can rely on.

Warranty

Backed by a comprehensive three-year warranty, the Swell Form Pro offers unmatched peace of mind and reflects our confidence in the machine's long-term performance and reliability.

Safety

Engineered with advanced safety features, the Swell Form Pro includes sensors at both the entry and exit points to detect paper feed issues. In the event of an interruption, the machine automatically stops—protecting both the user and the equipment.
